DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 13 is rejected under 35 U.S.C. 103(a) as being unpatentable over Grazioli et al.

Re claim 13, Grazioli et al. disclose a brake system for a railway vehicle having at least two bogies comprising: a main air reservoir line (9) fed by a compressed-air generating device, a compressed-air line connecting the main air reservoir line to a compressed air reservoir (12) on each bogie via a shut off valve (8.1) and the compressed air reservoir of each bogie being connected to pneumatic brake units (6.1) and auxiliary pneumatic units (7.1) on each bogie.

Allowable Subject Matter

3. Claims 1-12 are allowed.

Response to Arguments

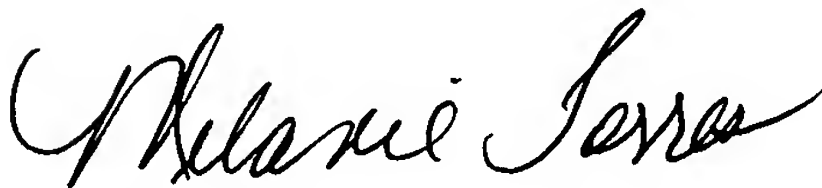

4. Applicant's arguments with respect to claim 13 has been considered but are moot in view of the new ground(s) of rejection.
